event, no present plans for the army would reach the men in class two.

Officials already have considered the possibility that Congress will decide to take in these additional young men. Some fair system by which they may be registered, classified and assigned to places will be devised. New regulations to be published shortly probably will set a way in which this can be done.

New regulations governing passports for registered men become effective November 29. After that date the nearest local board may issue passport permits without reference to district boards, as is now required. Passports are not necessary to effer Canada.

WAR CERTIFICATES FOR HOLIDAY GIFTS.

[BY A. F. NIGHT WIRE.]

WASHINGTON, Nov. 14.—Newlyappointed State directors of the
war savings movement at their first
conference tomorrow with treasury
officials will formulate plans by
which they expect to make war
savings certificates or stamps the
most popular Christmas gift
throughout the entire country.

It is planned to conduct an intensive campaign in every State beginning with the holiday season,
from which the government hopes
to reap loans aggregating \$2,000.
900,000 within a year.

The campaign will open formally
December 3. Friday, the State directors will call on President Wilson, who is expected to give hearty
indorsement to the war savings
plan.

Among the directors of the war

plan.

Among the directors of the war savings campaign announced today were the following:
District No. 6—General director, E. C. Bradley, San Francisco, assistant to Secretary Lane.

California (North.) John S. Drum San Francisco.

California (South,) G. A. Davidson, San Diego,
Nevada, Fred J. White, Reno.
Directors have not yet been appointed for Arisona.
The first conference of the State
and Federal district directors will
be held here tomorrow and Friday
to discuss plans for the campaign.

slong the Lower Plave."

SEVERE FIGHTING.

[SY ATLANTIC CARLE AND A. P.]

ITALIAN HEADQUARTERS IN

NORTHERN ITALY. Nov. 14.—

There was severe fighting when the
enemy crossed the Plave on pontoons, near Zenson, with a number
of machine guns. The Italians
rushed him to a cluster of houses
near the west bank of the river,
where he was being held at last accounts. "EXTREMELY CRITICAL"

[BY ATLANTIC CABLE AND A. P.] LONDON, Nov. 14.—Maj.-Gen. F B. Maurice, chief director of mill tary operations at the War Office, said today it would be several days before the Anglo-French force could operate on the Italian front California (North.) John S. "The Italian situation," said Gen. California (South.) G. A. Davidwill remain so for the next few will remain so for the next few days. If the Italians fail to hold the Plave line it is almost certain Venice will fail. Holding the Plave depends on the Italians themselves, as not for some days yet can Fran-co-British troops be in the fighting line."

ine."

Gen. Maurice did not attach vital importance to the fact that the Germans have already succeeded in crossing the Plave River at one point, as he said only a small force had crossed and the Italians should be able to deal with them adequate-

be able to deal with them adequately.

"There is much reason for optimism about the Italian situation on the Piave. They have been established there now for several days and have had time to rest and improve their positions. Meanwhile the German lines of communication are getting longer and more difficult. Bridges must be repaired and the German rail heads are a long way back, so it takes much time to get up guns, ammunition and supplies.

"Gen. Allenby has been striking a powerful blow on the Palestine front. The forces opposing Allenby have been very roughly handled. They have lost half of their effectives and must be reinforced from the army which Von Falkenhayn has been preparing at Aleppo for the Bagdad attack."

VETERAN MUSICIAN.

(BT A P. DAY WIRE.) BERKELEY, Nov. 14.—Funeral ervices will be held today for Edservices will be held today for Edwin Cotton, who was bandmaster of the Twenty-fourth Michigan Infantry band, the only musical organization that played while the battle of Gettysburg was being fought. Cotton was \$5 years old and a native of New York. For a number of years he has made his home in Richmond, where the funeral will be held under the auspices of Richmond Post 201, G.A.R.

Continued from First Page.)

(Continued from First Page.)

conference, it was disclosed that President Wilson, while entertain-ting every hope for a complete agreement, does not intend to permit the country's transportation systems to take place November 12. He also confirms the statement that questions are the statement that are the meeting with President Wilson, but did intimate strongly that his or sample to the plan of arbitration provided to th

PRESIDENTS ATTITUDE.

My dear Judge Chambers:
"May I not express my very dee;
of serious interest in your effort
of bring the railroad executives and relations on either side until ample opportunity shall have been afforded the United States Board of Mediation and Conciliation to bring about, if possible, an amicable agreement and that in the event of a failure to bring about such an agreement that any controversy that may have arisen will be submitted to arbitration in accordance with the provisions of the Newlands law.

with the provisions of the Newlands law.

"I take it for granted that your efforts will succeed because it is inconceivable to me that patriotic men should now for a moment contemplate the interruption of transportation, which is so absolutely necessary to the safety of the nation and to its success in arms, as well as to its whole industrial life; but I wanted nevertheless to express my deep personal interest in the matter and to wish you godspeed.

"The last thing I should wish to contemplate would be the possibility of being obliged to take any unusual measures to operate the railways and I have so much confidence that the men you are dealing with will appreciate the particle motives undeflying your efforts that I shall look forward with assurance to your success." Continuity and sincernly yours.

Judge Chambers leaved this memorandum:

"As a result of the efforts of the Board of Mediation to bring the railroad executives and the brotherhoods engaged in train eperation to an agreement that there shall be no interruption in their relations on either side until ample opportunity shall have been afforded the United States Board of Mediation and Conciliation to bring about, if pessible, an amicable agreement and that in the event of a failure to bring about such an agreement any controversy that may have arisen will be submitted to arbitration in accordance with the provisions of the Newlands law, Commissioner Chambers has held conferences with leading railroad officials and chief executives of the brother hoods.

AGREE TO MEDIATION.

"At a conference in Cleveland, O., on Thursday last between Judge Chambers and Warren S. Stone, grand chief of the Brotherhood of Locomotive Engineers; W. S. Carter, president of the Brotherhood of Locomotive Firemen and Enginemen: L. E. Sheppard, first vice-president of the Order of Railway Conductors, and W. G. Lee, president of the Brotherhood of Railroad Trainmen, it is understood certain substantial agreements were reached. Judgs Chambers declined to state what these results were, but the rumor is that the executives of the labor organizations agreed to the mediation features of the proposal, and it is inferred that the conference with the Pracident, which is planned for 2:30 p.m. Thursday, will have reference to the arbitration features of the proposal agreement. AGREE TO MEDIATION.

ny interruption of realization.

"Judge Chambers did not feel autorized to say what subjects would a discussed at the conference, and sclined even to intimate what results were anticipated. He regards he conference as involving a most erious situation, as the transportation problem is perhaps the most important one connected with the successful prosecution of the war neasures of the administration. "The Switchmen's Union of North America, it is understood, has agreed to the mediation and arbitration proposals as a whole, and it is believed that this is the attitude of the Order of Haliroad Telegraphers. The proposal is to be submitted to the Conference Committee of managers and the rallways, and it is anticipated that the rallroad executives will agree to both mediation and arbitration."

nd arbitration."

take place November 22. He also onfirms the statement that question of mediation and arbitratio as referred to in the President's let ter to William I. Chambers of October 26 probably will be made the basis of discussion at the White House meeting.

He said many thousand transportation employees of classes said.

war without a substantial increase in pay.

He said trainmen are just as patriotic as any class of workmen, and that no less than 2000 members of the brotherhood are today in the military or naval service, and in order to insure 100 per cent, patriotism of workingmen they must be paid rates that will keep them and their families from being hungry. He felt confident that our government, like that of Great Britain, will see to it that living wages are assured those upon whom the burden of war falls the heaviest.

FIREMEN UNDECIDED.

[ST A P. SAY WIRA]

FIREMEN UNDECIDED.

(BY A. F. DAY WIRA)

NEW YORK, Nev. 14.—Whether 1,000 railway firemen will join with the conductors and brakemen on all railroad lines in the United States in their proposal to submit demands for large wage increases will be determined at a meeting of the firemen's brotherhood, to be held at Cleveland, G., this week, it was learned here today.

The conductors and brakemen, with a total membership of 175,000, are now taking a secret vote on a proposition to place before the railroads demands for increases in wages amounting to 7000 than

reads demands for increases in wages amounting to more than \$100,000,000 yearly. These demands mean increases in pay averaging 42 per cent.

The official brotherhood circular, made public vesterday, declares that "in case the proposition is turned down by the managements" a strike vota will be taken.

Parm's arrest developed when F. W. Redhouse, a taxi driver living at W. Redhouse, a taxi driver living at W. Atli Halldale avenue and having a stand mear Fourth and Hill streets, reported to the police that the man later arrested and one Juan Lemos, 25 years old, also later arrested, approached him under suspicious circumstances early in the evening and negotiated for the rental of his machine for a long trip later. Redhouse becoming suspicious told his story to Detective Sergeant Robers and the latter ence, and what rete regards g a most transported mest with the the war ration.

of North as agreed rolling as a slacker suspect. When Lemos and Parra approached they were placed under arrest. Lemos had no registration card and was held as a slacker suspect. When taken to Central Station, he told the officers that they had interfered with the consummation of a romance.

terfered with the consummation of a romance.

Lemos stated that his purpose in renting the automobile was to take a friend of his and this friend's sweetheart, both living at Lynwood to Santa Ana, where they were to be married. The Sheriff office immediately started an investigation voicing the suspicion that perhaps an abduction plot had been frustrated.

FARMERS ASKED TO CONSERVE MACHINERY.

WASHINGTON, Nov. 14.—Winte nservation of agriculture's artillery, the machinery used in the huslery, the machinery used in the husbanding of the nation's crops, was urged in a statement by the Department of Agriculture today. The programme proposed for farmers everywhere is to give greater care to farm equipment, including avoidance of needless exposure to the weather, so as to lengthen its service, the uppairing from now on of all the machines to be used next season, and return of useless machinery to trade channels as junk.

CAFES SAVES TONS,

(ST A. P. Niosit wime.)

WASHINGTON, Nov. 14.—Introduction of "meatless Tuesdays" in the saving by one great chain of restaurants of seven tons of meat weekly, reports today to the food administration show. This includes about 3500 pounds of beginning the saving by one great and \$300 pounds of beginning the saving by one great and \$300 pounds of beginning the saving by one great and \$300 pounds of beginning the saving by one great chain of the saving by one great

STRUCK BY AUTO AS LAY IN THE ROAD.

Autoist Tries to Straddle Prone Figure on Footbill Boulevard but Victim Raises Head and Skull is Crushed—Was on Hunting Trip

in the read, unable to move apparently from the effects of intexica-tion John Lorenzi, 35 years old, of No. 719 Clever street was almost instantly killed on the Foothill boulevard near Pasadena last night.

me could rise or friends could reach him, an automobile, driven by A. V. Wagner of No. 1856 East Villa street, came along. When Wagner saw the prostrais figure it was impossible for him to turn either way and he tried to straddle the man. In this head while the auto was passing over him and his skull was rushed.

GERMAN RESERVIST TAKEN INTO CUSTODY.

(BY A. P. DAY WIRE.) tery attaches to the arrest here of Ernest Mignon, a German reservist who is at the head of the Migno Wireless Corporation, which make wireless apparatus, Mignon at on time was a member of the crew o Emperor William's yacht. He ha a wireless station here until it was dismantied at the beginning of the war. He has been openly sympathizing with the Germans, according to Federal agents, but just what leto his arrest is not disclosed.

MAYOR OF NEWARK

NEWARK (N. J.) Nov. 14,-Tal ulation today of returns from yes-terday's election confirmed the se-lection of Mayor Thomas L. Ray-mond, Independent Republican, as head of the board of five commissioners, which will govern the city's affairs during its first term of char-

NEW YORK, Nov. 14. — Wall street bankers have received cable advices etating that the exchange value of the German mark in the Holland and Switzerland markets has recently dropped to the equivalent of about 10 % cents. The mint valuation of one German mark is 12.5 cents. Last March when German exchange was last traded on in the New York market, 4 marks were quoted at 69 % cents, or about 17 cents a mark.

"MEATLESS" CHAIN OF CAFES SAVES TONS.

PREFERENCE OF ADVERTISERS REFLECTED IN SUNDAY'S TIMES.

On November 11, 1917, The Times again outclassed the other day newspapers in the volume of paid advertising printed.

The repeated manifestations of this fact in every section of The Times proves beyond the possibility of a doubt that hundreds of local firms and thousands of individuals continue to rely upon and prefer The Times in all projects that involve the use of vertising space.

tising printed in the local newspapers last Sunday:

THE TIMES 11,050 inches

On the same date The Times printed 694 inches more classified ads than the other two local Sunday newspapers combined. The figures which follow tell in few words the story of the immens popularity of The Times "want ads" in Los Angeles: THE TIMES "Want ads."

IBY ATLANTIC CABLE AND A. P.1 LONDON, Nov. 14.—The com-mercial committee of the House of Commons gave a luncheon today for Walter H. Page, the American Ambassador. Among the large number American mission to the inter-Allied conference and Vice-Admiral Sins, commander of the American naval forces in European waters. Foreign Secretary Balfour, in pro-posing Mr. Page's health, dealt with the value of the establishment of intercourse between Great Britain and America by legislative commit-

Whole World Kin."

It's a commendable trait when something has been of benefit to us, we want to share it with others who stand in need of the same help. It's the touch of Nature that makes the whole world kin—the wanting to be helpful to our fellow men. That is why people who have used Chamberlain's Cough Remedy write letters to the manufacturers about it, and ask to have them published so that others will know what to do under the same circumstances. Behind every one of these letters is the warm-hearted wish of the writer to be of use to some one else.—[Advertisement.

WIRELESS FOUND IN OAKLAND TANK HOUSE.

OAKLAND, Nov. 14.—A wireless plant on the tank house at the residence of Wendel Childs, No. 3050 Hopkins street was dismantled today by a squad of men under direction of H. D. Hayes of the naval communication bureau. Hayes said complaint had been made by neighbors to the secret service department that messages had been sent from the plant at night. The plant was supposed to have been dismantled last August. Childs said he knew nothing of its having been used since his son Ralph joined the navy, but, according to Hayes, the plant was in complete working order.

hair will be wavy, fittly and abundant and possess an incomparable softness, lustre and luxuriance.

Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strensthens them. Its exhilarating, etimulating and life-producing properties cause the hair to grow long, strong and beautiful.

Tou can surely have pretty, soft, lustrous hair, and lots of it, if you will spend a few cents for a bottle will spend a few cents for a bottle were made by John J. Byrne, W. H.

Eighty-Four Years of Leadership

THE high standards of tone and workmanship which have made Martin Guitars superior to all others for eighty-four years were established by C. F. Martin, Sr., the most celebrated guitarmaker of the nineteenth century. His thorough understanding of the art of selecting and matching wood, of the principles of durable and artistic construction and of the fundamental importance of the best materials and the finest workmanship in every part, brought him fame as the maker of the finest guitars the world has ever known.

After the death of C. F. Martin, Sr., in 1873, the "House

After the death of C. F. Martin, Sr., in 1873, the "House of Martin" was conducted by his son, C. F. Martin, Jr., until his death, in 1832, which was then, and is now, conducted by his son, Frank H. Martin, assisted by his son, C. F. Martin III.

that you had employed a host of detectives, and various other things and that all these facts would not look well before a jury?" Earl denied this.

WOMAN RULED OUT.

WORAN RULED OUT.
Then didn't I say: 'Mr. Earl, didn't you know Madge Gibeon?'
There was an immediate protest from the attorneys of Mr. Earl, and the court ruled that he would not the court ruled that he would not

he didn't consider it a very serious offense.

"Aren't you an attorney?" queried Attorney Ford. "Didn't you know that Evans was aiding and abetting the commission of a felony?"

The witness did not answer.

A letter from Norton to Earl was admitted as evidence. In this letter, dated July 28, 1916, Norton reminded Earl that four years before Earl had promised Norton the support of his papers, and the letter stated:
"I can conscientiously assert, without any reservation whatever, that I have always been loyal to you and your interests." and in another portion of the letter the writer expressed objection to Capt Helms as a candidate for District Attorney, terming him "a most medicore man whom the columns of the Express and Tribuse laud and giorify"

HAMILTON'S STATEMENT.

He denied that he had ever heard hat L. A. Hoskins, a former mansing editor of the Earl papers, had posted a statement in the editorial rooms, telling what Earl's employees thought of him. Then followers

"KITCHEN CABINET." "there may have been one time that there was a discussion about some appeintment." He admitted that the members of this little band were members of the "Good Government" organization, but that the meetings were not called by this organization. Earl admitted that he was a stockholder in the Home Telephona Company at the time articles about the company had been published in his papers, but the court did not permit him to answer the question as to whether he did not ewn \$190,000 worth of the company's steck.

E ACERBITIES OF WAR. Berlin booksellers are not allowed to il the works of Shakespeare, Milton, Gib-n or Macaulay. British bands are pro-bited from playing the music of Wagner, ethoven, Mozart or Handel. Let Amer-us arise in their might and refuse to eat

WE DOST.

The American women are doing their part in the war, whether they are sending a husband or a son to the front. And they are conducting themselves most patriotically. Doff your hat to the noble American woman worker, whether she labors to aid the great cause through her work at home, in the factory or the office.

Physicians of the Rockefeller Insti-have given to the profession the de-of producing a serum to operate ainst pneumonia, which is said to be prom-ag and may be of the utmost value in the my canfonments. Another activity of one "the interests" that the Democratic party d to how! so much about.

CACTS AND FIGURES. The total amount in building permits ed in Los Angeles to date for this year is \$12,536,552, as compared with \$12,665,593 for the same time last year, an increase of \$2,871,159 over 1917. Who was it said that war is playing havoc with the building usiry? He must have been thinking of as other city than Los Angeles.

It is not pleasant to record that in the recent election in New York City Hillquit, the Socialist, the slacker, the peaceat-any-price candidate, polled 124,800 votes, or nearly 22 per cent, of the entire vote cast. This was due largely to the great number of German (more German than American) naturalised citizens living in the East River wards.

NO REASON FOR FT.
"There be three things," said Solomon,
"which are too wonderful for me; yes, four
which I know not—the way of an eagle in the air; the way of a serpent upon a rock; the way of a ship in the midst of the ses, and the way of a man with a maid." Had the wise old king lived in modern times he would probably have added a fifth unac-countable institution, and that is the green ple and the stale piece of cheese that is rays served as the final course of a bad mer at a second-class Italian cafe!,

TWE YOUR BRAIN A CHANCE. Mr. Office Man. Mr. Writer, Mr. Preacher, do you know why you can't concentrate our mind on your work between the hours if 7 a.m. and noon, the very time when your ruin should be most alive and subject to be fluxed inspirations of the day? these blood and energy in your body. Try the no-breakfast plan or the late-breakfast plan for a few days and you'll be surprised at the increase of your efficiency and the newer with which you can work.

EXPERIMENTING WITH BIDDY. The electric-light bills of Riverside trymen have been reduced more than poultrymen have been reduced more than 50 per cent. because they were able to prove that the production of eggs has been increased by turning on the lights at midnight and fooling the hens who mistake the manufactured radiance for genuine day light—and conduct themselves accordingly. The question is, can the city hen continue to do double time by this camouflage method and still live as long and as happily and mise as many war birds as her backwoods mister who is not compelled to use artificial intimulants to increase her productiveness? If she can, then she is a precious anomaly in the universal scheme of things.

YES, THEY'LL COME BACK!

Can Italy come back and is Russia out of it for good? These are the questions which many pessimists are asking. Just wait, you doubters. Italy has not gone anywhere yet—she is only preparing for the big thing. And as to Russia, she ian't "out of it" by any means, and the recent upylsings in that country are only indicative of the fact that the great body of the Russian people have misunderstood the motives of Kerensky and that they are insisting on a real democracy and a genuine, lasting peace that shall include all the lastions of earth. Yet, if both Italy and Russia should be completely defeated, that would not lessen but would rather accentuate the duty of America and would frethe Allies with a new desire for international freedom that would sweep them to VES THEY'LL COME BACK! enal freedom that would sweep them to after, no matter what the cost might be in onsy and men. Besides, there is Japan.

There are some folks in this world that, like an automobile, ought to be equipped with auto horns and tail lights. And a speedometer would not be a bad thing.

The new French Minister, M. Henri Boutilon, is said to be so thin that he can be esten with a spoon.

DRODUCE MORE! PRODUCE MORE! "We have come to the days," aptly observes George Ade, "when hostling must supplant conversation." It must also sup-

California is known the world over as the land of opportunity, the land where climate and soil combine to keep the wheels tain fortresses form a bulwark that King Boreas has naver been able to storm; under their protection the fertile California valleys are never closed to the forces of agriculture. There are no delays occasioned by winter's ice or summer's heat; crop follows crop with the endless motion of the tides of the sea. The land is always willing; dalways are accessioned alone with willing; delays are occasioned alone by the

lack of labor.

In this great hive of production there are many workers, and some drones. Every person who produces something, however insignificant, is putting his patriotism into practice; he is adding another atom to the infinite mass of the nation's productive energy. California's possibilities in helping to win the war are infinite; there are more than 2,000,000 fertile acres lying idle by reason of a lack of workers to till the soil. Power units of measureless value are go-ing to waste because capital and the organization are lacking to utilize great nat-ural forces. California's manufactured products could be multiplied untold times f the man power were available to produce the raw material and convert it into the thousand and one necessities of modern civilization. The soil waits-millions of acres whose fertility has never been excelled; the climate waits, a climate that is ideal for agriculture throughout the whole year. Only workers are lacking.

Yet in the midst of these infinite re-

sources of natural wealth the specter of want has appeared. There are days without wheat and days without meat; warnings are scattered broadcast that consumption of necessities must be curtailed and that of luxuries wholly abandoned because them is a look of production. Hungaring there is a lack of production. Hungering in the midst of plenty, thirsting in the beart of a fountain—only woeful malad-ministration can make such conditions pos-sible. Only artificial barriers can keep millions of acres of land lying idle while tens of millions of people with money to exchange for food, regardless of price, are soing hungry. Unhampered by governmental restriction this unnatural condition would quickly right itself through the application of the natural law of supply and demand. Plainly there has been too much legislation and too little production.

Never before were there so many regula-tions concerning the production, distribution and consumption of necessities; but it is becoming painfully apparent that legislation and regulation are powerless to fill empty stomachs. Enthusiastic bureaucrats have been carried away with the idea that legisgovernment can control supply and demand by decree, and that the one thing necessary to reduce the cost of necessities is for the government to fix a maximum price which may be charged the consumer. In Los Anmay be charged the consumer. In Los An-geles county the master bakers were ar-rested and fined. The baking industry was turned 'topsy-turvy and production was halted; but it is has not even been alleged that the price of bread was lowered one penny by the prosecution. The latter part of September brought in the supply of new wheat, and the price of bread fell somewhat; but the prosecution had nothing to do with it; clamor had nothing to do with it. Old Colonel Supply-and-Demand did it.

Other regulators are concerned over the rise in the price of eggs. Complaint has been made to the grand jury and an investigation is now in progress. It is even sug-gested that there may be other indictments violation of the Cartwright anti-trust California is the only State in which it is a crime for those engaged in any line of production to meet and discuss a uniform price for their products. The production of eggs has fallen off and increased prices were bound to follow. The cost of chicken poultry raisers declare they cannot pay it even though they get fancy prices for eggs, and they are killing their hens. Unless some because when you first get up in the string you stuff a lot of starchy foods or any meats into your stomach, which then this a battle royal with your brain for the TION ADOPTED SINCE ADAM CANNOT REMEDY. You cannot compel any man by law to keep chickens and sell eggs at a loss.

Beet growers, wheat farmers and cotton planters are appealing to whoever will listen for more farm hands. During the last six months 20,000 active young men en-listed from California, at least 10,000 laborers of European birth returned to their nes by reason of the war and 30,000 country because the report was circulated surreptitiously among them that the Mexi-cans would be conscripted for military service. The actual result is that nearly 50,000 workers have been withdrawn from the productive units in California during the last aix months and none have come to take their places. Protests are being made to the Federal government by the State Labor Commission and the State Immigration and Housing Commission against importing other Mexicans or permitting those who left to return. Without going into the question of the motives of the regulatory commis-sions, their attitude is as inimical to in-creased or sustained production as the head of the House of Hohenzollern himself could

During the last twelve months California did much to increase the production of food-stuffs, despite serious handicaps of bad legislation and chaos in place of organization. There was an increased yield of 1,000,000 bushels of wheat, 2,000,000 bushels of barley, 2,000,000 bushels of rice, more than 3,000,000 bushels of potatoes and 5,000,000 bushels of beans. It is too soon to secure reliable estimates on the increase in cotton crop, the barvest is now under way. But if the State regulatory commis sions will simply keep hands off the in-creased cotton yield will be the most gratfring of all. These records represent the year just, ended. But what of the new year? Hundreds of patriotic farmers in California lost their all in a single season because they planted more than they could harvest. They trusted to the government to provide the additional labor necessary; but none of the legislation passed, either at Washington or Sacramento, sent into the fields a single extra unit of productive force. It is but natural that others who narrowly escaped disaster last year are askHow it Would Help.

ing what assurance they will have that workers will not be still fewer in number next summer. A farmer who stakes his all on a crop has a right to demand that he shall be mided and not harassed; he has a right to demand guarantees that some mis-guided State Commission will not be per-mitted to railroad all the workers out of the

It is depressing to discover how many persons there are who know so little of trade and industry that they have not learned that THE WAY TO REDUCE THE MARKET PRICE OF ANY PRODUCT IS TO INCREASE THE SUPPLY. As the sup ply diminishes prices rise; if there is a sur-plus after demands are satisfied prices are certain to fall. Europe can be one vast flame of battle without increasing the cost of water, because the supply is practically inexhaustible; but when 10,000,000 acres of wheat land are laid waste the cost of bread will soar until an additional 10,000,000 acres the ante-war acreage is increased the price prior to the war. New producers must be found to take the place of those called by the war and present producers must be en couraged to increase their output. This rule applies equally to the man with ten acres and to him with 10,000, to the manufacturer whose daily output is less than hundred dollars and to the magnate whose factories manufacture daily products value

Prosperity in time of war is to be found only in production. We must be an organtred producing people if we are to render capable. Let each one extend himself to the utmost to produce something, however insignificant it may appear, but something which will add to the supply of life's neces sities. Leave to the drones the academic discussions of the war and after; let critics

Enough energy is wasted daily in chasing after some mythical food privateer to cultivate an extra million acres of wheat in California. There are occasional food bogs: but they are to be found among the middle men, not among the producers. Prices o many articles are outrageously high; but the outrage consists in limiting through legislation and regulation the supply of the labor by which they are produced. Every idle acre that is rendered productive tends to limit the price of some necessity. Every mill and factory that is opened helps to reduce the cost of living. Prices are soaring account millions of productive areas are soaring. because millions of productive areas were laid waste by the war and tens of millions of men have ceased to produce and becom

There is but one remedy: Produce! Produce! Still produce! Don't worry about what the other fellows are making; don't penalize the producer; don't tell the other fellow how to do it; but get in and produce something yourself. If we want cheaper eggs, cheaper chicken-food, cheaper wheat, the new post of the period of th cheaper bread, cheaper potatoes, let us pro-duce more eggs, more chicken-food, more wheat, more bread and more petatoes. Old Colonel Supply-and-Demand will do the rest!

GERMAN CHIVALRY.

Germany has officially admitted that young women of Alsace-Lorraine have been taken to Germany and compelled to work in munitions plants and in other places In munitions plants and in other places which the imperial government sees fit to place them, but the German officials take pains to inform the world that the girls "are well taken care of morally." So kind of Germany to give the world that last assurance—otherwise, in view of the rape and worse atrocities committed by the noble Teuton soldiers against their fair Beitien and Franch canfiles, the world might gian and French captives, the world might have suspected that all is not well with the Alsatian girls which the Germans have en-

A RICH DISCOVERY.

Another notable addition to the wealth of California is the discovery almost at the of California is the discovery almost at the limits of Los Angeles of a large quantity of high-grade oil. Two gushing wells and other development in the Montebello field have brought to light a deposit that is worth hundreds of millions of dollars. The field has added to the country's supply of fuel, has made many sudden fortunes and is bound to be of both direct and indirect benefit to Los Angeles.

Aside from the monetary gain to land owners and lessees, the production of an enormous quantity of fuel may be of tremendous value to the United States. How long the demands engendered by the war shall continue cannot be definitely forecast.

long the demands engendered by the washall continue cannot be definitely forecast but that every resource of the country may be taxed to the uttermost before its conclu-sion is regarded by the authorities at Wash

All over the country shippards are workall over the country shipyards are working extra shifts to build great vessels to
transport men, food and ammunition to Europe and to replace those destroyed by German submarines. The government plan is to create the biggest fleet in the history of the world. The insutiable beliers of such a great number of ships will draw upon our fuel supply as it was never drawn upon be fuel supply as it was never drawn upon be-fore. Eastern railroads are rushing coal to the Atlantic seaboard. Measures are being taken and more will be adopted to conserve and use to the best advantage the oil and coal that we have. Undoubtedly, before the war is over hydroelectric energy, in places where it can be developed to advantage, will replace the use of oil.

It is absurd to suppose that after the war the mighty merchant marine fleet war the mighty merchant marine fleet will be permitted to become inactive. The need of fuel will continue and California will be called upon to supply a great deal of it. So the newly proven Montebello field must be regarded as of incalculable value, another boon from nature for which we should be

This is not the first time that Los Angeles has profited by oil. Discoveries of oil in the Wilshire district, at Puente and Newhall gave this city a much-needed impetus several years ago. Lack of cheap fuel at that time was throttling industries and holding back the growth of the city. The off dis-coveries came in the nick of time to enable its goal of the metropolis of the West.

CURT COMMENTS.

When we get the wrong telephone num-ber twice running, our rage against the cen-tral powers is positively unbridled.—[Chi-

tral powers is positively unbridied.—[Chicaso Tribune.

The Germans may have thought that, as
the transport was bound for America, it
had sick and wounded or women and children aboard.—[Boston Transcript.

Germany's reported intention to declare
the American coast a war zone causes no
disquietude. It is already as much of a
war zone as Germany feels able to make
it.—[Chicago Herald.

war zone as Germany feels able to make it.—[Chicago Herald.

In these faverish kuitting days the editors of Kansas are universal in their envy of Gomer Davies of Concordia, who has a wooden leg and can darn the hole in one sock with paint.—[Emporia Gazette.

It doesn't make much difference, of course, whether the German government is blown up from within or without, but it would be a mistake for the withouts to wait for the withins to do it, because it might be that the withins are waiting for the withouts to do it.—[Kansas City Times.]

Ford turns plant over to government, then subscribes \$10,000,000 to Liberty Loan. He must want the boys in the trenches by Christmas.—[Wall Street Journal.

Ins't our earthly existence curious? Because Austria tried to gobble Serbia we are now about to pay three cents apiece for our postage stamps.—[St. Louis Globe-Democrat.

crat.

Even in a time of war this sudden shortage of farm labor would not have occurred thirty years ago. In those good old days every farmer raised his own farm laborers.—[Emporia Gazetta.

BY TOM FITCH.

When the war shall be over there will be a multitude of men who, in returning to the pursuits of civil life, will seek other fields of effort for their labor and for the investment of both small and large amounts of cap-Ital than those occupied by them before the war.

California, and especially Southern California and Los Angeles, offers opportunities not afforded in any other

portunities not afforded in any other part of our national domain, for it has inexhaustible resources which always have contributed and always will contribute to its growth.

Men can utilize the tides of ocean and cause them to grind grain and light cities, but they cannot change the hours of their incoming and outgoing. The command of King Canute to the waves: "Thus far shalt thou go and no farther!" was obeyed, greatily to the awe of his inland subjects, and the strengthening of his authority over them, because the cumning monarch when he issued his lipse dixit drew his scepter along the lipse dixit drew his scepter along the sands at high-water mark. Any old fisherman could have built up a repu-tation as a wave commander in the

same way.

Los Angeles has had her tides. The first flood tide was a little one. It came forty years ago, when John P. Jones was "going to build" a railroad from Santa Monica to independence. It was a tide laboriously pushed forward by an Ananias and Sapphire syndicate. The cheerful liars who backed it, obtained franchises, and rights of way, and depot grounds and stock subscriptions by their promises.

Yet this premature boom was not without its advantages. It awakened the inhabitants of Sleepy Hollow. It compelled the cattle kings to believe that there was something more of value in a built than his hide, his tallow and his rear. It made them concede that a cow might be miked without lassoing and throwing her and employing the services of two

and employing the services of two men to sit upon her, one man to hold her hind legs apart, and one man to

milk her.

It turned the attention of farsighted men to the possibilities of a
great city being developed here. It
was a sort of John the Baptist to the
real boom which came years later.
After the first boom died and its
corpse had been interred amid the
cordial curses of the mourners. Los
Angeles went back to bed and snored
for a time.

for a time.

Then the tide turned again. In few years it changed a town into a city. In 1880 Los Angeles had a pop-ulation of 11,183, in 1890 it had 50,935, in 1900 it had 102,479, in 1910 it had In 1900 if had 102,473, in 1910 it had 313,198, now it is estimated at more than 600,000 and it is pushing toward the million mark. Values of real es-tate advanced as population in-creased. Lots on the principal busi-

tate advanced as population increased. Lots on the principal business streets, which were offered in 1834 for \$1500, sold in 1916 for \$150,000. Everybody who invested in real estate during the map of Los Angeles and who held on until now, made, what the wicked men who bet on the Tia Juana races call a "hundred-toone shot."

What has Los Angeles to offer to the newcomer? She has her original stock of sunny days, of starllt nights, of winter roses, of orange blossoms and of life-giving ozone, perfumed with the breath of aweet sait sea. The fabled fountain of Pohce De Leon promised no more to those who drank of its waters than can be obtained in this city. Climate is as salable as wheat or beet, but it cannot be bottled or boxed or tied up in a bundle and carried away. Only "Johiny on the spot" can get the benefit of it and Johnny knows it, and so he comes here with his wife and his sisters and his cousins and his aunts to see it, and smell it, and bathe in its delights.

The continued growth of Los Angeles deepend usons sold proposal contents of the present stores of the proposal course sold proposal course

drink it, and bathe in its delights.

The continued growth of Los Angeles does not depend upon soil or climate. The possession of power from the Owens River aqueduct, of a practically unlimited supply of fuel oil and of natural gas and other factors must make of this a great manufacturing city. The copper Arisons will be brought here and fashioned into wire. The cotton of the Imperial and of the Salt River the Imperial and of the Salt River and Palo Verde valleys and the wool of Nevada and Arizona will be brought to Los Angeles looms, and the hardwoods of Central America and the Philippines will be freighted here to be fashioned into furniture.

The child is born who will walk the streets of a city of 2,000,000 people that will be developed here.

THE SONG OF HATE.

THE SONG OF HATE.

The right must win, and the war must go on till the victory is assured for liberty over serfdom, for tolerance over bigotry, for a reasonable latitude of action—in mind and in person — over oppressive political and individual limitations. No virtue that may reside in system can be superior to the virtue that lives in hearts of simple goodness and in conduct that is faithful and conscientious and responsible day by day to a Power on high.

But as long as hate survives "we have scotch'd the snake, not killed it," and all the hideous brood of war evils may break out again. The law of love must be the law of the supreme jurisdiction, hard as it is to make it applicable to those who seem, by every ethical canon that men know, to have placed themselves beyond the pale forever.

Obedience to the law of love does not and cannot mean the utter failure to resist a great and a foul wrong.

Love knows what righteous anger

Love knows what righteous anger means, and on occasion is prepared to break out in flame as well as to evince a tender indulgence. Love, if it is true, is not merely fond, but wise. The love that is blind is a more reckless infatuation that is an impermanent fire in straw, not flattering to its object. Love is corrective and chastening, or it is not worthy of the name. Love toils and prays for peace—but that peace may come it does not fear to go to war, and, with the young men who prove that they care for their country in the best way they know, it stands without flinching against the assaiing devildoms of hate with which it has no compact and can make no terms.—[Philadelphia Public Ledger.

OUR FUTURE.

The Reason. The great man had just written his name, and, as befits the great, more or less illegibly, in the hotel regis-ter and was making his way to the

elevator.

"I beg your pardon, sir," said the clerk, "but may I ask your name?"

"My name?" shouted the great man. "Why, haven't I just written it in the register?"

"You have," said the clerk, "and that's just what has aroused my curiosity."—[Chicago Herald.

DROLL STORIES.

Suspicious Widow.

Mrs. Johnson, the widow, was engaged at her washtub, when there entered to see her Mr. Botts, a devoted admirer and sultor.

After a bit, Mrs. Johnson asked:
"Yo' sho' yo' loves me?"
"Why, Mrs. Johnson, of co'se I's sho'!"

sho'!"
Then, from Mrs. Johnson, after a suspicious survey of Mr. Botts:
"To' ain't gone an' lost yo' job, has yo'!"—[Everybody's Magazine. Luck.

A very nervous freshman met Dean Jones of Yale one morning and found himself obliged to walk

and found himself obliged to walk out of chapel with the dean, who was a friend of his family. Chimes ringing at a church they were passing made him attempt a conversation.

"I think those chimes are wonderful," he said. No answer. "Aren't those chimes exquisite?" he stammered. Still no response. "Those are the most beautiful chimes"—he raised his voice a bit.

"Did you speak?" said the dean. "I can't hear on account of those infernal chimes!"—[Ladies' Home Journal.

A Noo Yawk Bank Director A Noe Yawk Bank Director.

A Buffalo man stopped a newsboy in New York, saying: "See here, son, I want to first the Blank National Bank. I'll give you haif a dollar if you direct me to it."

With a grin, the boy replied: "All right, come along." and he led the man to a building half a block away. The man paid the promised fee, remarking, however: "That was half a dollar easily earned."

"Sure!" responded the lad. "But you mustn't fergit that bank directors is paid high in Noo Yawk."—[Congregationalist.

The Old Habit. The recruit at bayonet practice had just given the dummy a vicious jab, when the drill sergeant noticed that he was grimacing in a rather unusual manner.

"Number Four!" cried the sergeant; "what's the idea of all that

mugging?"
"Why," said the recruit, a former
"Why," said the recruit, a former movie actor, "you want me to regis-ter hate or fury or something, don't you?"—[Boston Transcript.

Won the Cigars.

Wen the Cigars.

The subject of rifle shooting often cropped up at one of the training camps.

"I'll bet anyone here a box of cigars," said Lieut. A. "that I can fire twenty shots at 200 yards, and tell, without waiting for the marker, the result of each one correctly."

"Done!" cried Mai. B. And the whole mess turned out early the next morning to witness the experiment. The lieutenant fired.

"Miss!" he announced, calmly. Another shot.

"Miss!" he repeated.

A third shot.

"Miss!"

"Miss!"
"Here, hold on!" put in Maj. B.
"What are you trying to do? You're not firing for the target!"
"Of course not!" was the cool response. "I'm firing for those cigars!"
And he got them. — [Chicago

"My dear, I am surprised that you should accuse me of being intoxicated last night. Did I not sit up an hour after I got home, smoking and reading?" asked he.

"Yes: and do you know what you were smoking? It was one of my. curi papers."—[Pearson's Weekly.

Valuable Words. A young Cambridge man who has not long been married usually con-fides his troubles to a friend whose matrimonial experience covers a pe-riod of twenty years. One day the former remarked very

despondently: "I said something to my wife she didn't like and she has not spoken to me for two days." The eyes of the old married man

brightened.
"Say old man," he exclaimed engerly; "can you remember what it was you said?"

RIPPLING RHYMES.

THE CHEERFUL MOTORIST.

I crawl beneath my balky car, with fifteen kinds of wrenches, and tinker where its vitals are, 'mid gas and grease and stenches. When done I am a sight to see, a sight for sore-eyed dragons; and passing horses shy at me, run off and bust their wagons. I skid into a muddy ditch, and hall some passing granger, to bring his mules along and hitch, and haul me out of danger. I wallow round in squashy mire, cold rain upon me drizzling, removing from the wheel a tire, and use some language sizzling. Sometimes the lamps won't shed a ghost of their accustomed splendor, and then I run into a post and break a costly fender. A farmer stops me now and then, and asks me, in his dander, to pay for running down his hen, his sheepdog or his gander. O'er arid bills I launt along, through meadows cool and ferny, and something's always going wrong, wherever I may jour-I crawl beneath my balky car, with and ferny, and something's always going wrong, wherever I may journey. But when I motor home again, from my adventures shocking, and mingle with familiar men, you ought to hear me talking! "I had the finest time," I yip, while truth grows vague and hazy; "no accident on all the trip—my car is sure a dalsy!" WALT MASON.

The fund to be employed in national war recreations has already reached in actual contributions and pledges the sum of almost \$4,000,000. Where is there another nation on the footstool that provides so well for her soldiery?

PRACTICE TONIGHT

Official basketball practice for the L.A.A.C. court experts starts tonight in the Mercury gymnasium. Among the basket-shooting experts on hand are Perry Sidener, Jack Bean, Klawitter, Red Wilson, Carl Brandsteiner and Laswell. This season the club will put out two teams, one in the 145-pound class and a heavy-weight quintette.

MAMMOTH BOXING MEET FOR SOLDIERS.

BOSTON, Nov. 14.—The Boxing Committee of the New England Association of Amateur Athletic Unions has set December 10 as the date for a boxing tournament in this city, to be open to amateur boxers from all parts of the country. The proceeds will be given to soldiers' relief funds.

MODES IN MOTORS ARE REMINDFUL OF WOMEN

Dame Fashion has Been Consulted by the Motor Designers.

BY OLIVE GRAY.

Grandmother Franklin, a cross-country pioneer, with her family of grown-up daughters, all and each of importance in a well-ordered social world, frowns openly across the street at a gay Chevrolet grass widow, all in alluring gray. "Bevare of gray grass vidders," Grandma Franklin seems to say. Another Chevrolet—those sinters were always gay!—wears a high, stove-pipe hat and has other worldly characteristics.

The Studebakers make little splurge, but they keep on about their business, like the good housewives that they are.

There's that McFarlan person, in a long-trained gown of yellow sath! Dear, dear, how some women do love dress!

On the other hand, there are the Dorts. They wear the plainest clothes, but they neglect nothing, it is said, to make their families happy; and the same is true, on a more extensive scale, of the Hudson sisters. That sleek one all in brown, with velvet hat and sealskins, is one of the model housekeepers who entertain extensively and bring up the children MOST IMPORTANT.

model housekeepers who entertain extensively and bring up the children

clothing. Some people call them tires, and everyone prefers either this or that make and will stake her life that there is no such other.

There's an optician, who furnishes eyeglasses, or lamps, and whose

PICKED UP AT THE AUTO SHOW.

THAT young man with the volving arrangement which gives durable voice in Don Lee's exhibit is the center of much interest. He has constituted himself a one-man debating society and works himself up into a frensy arguing the various methods of lubrication, etc. If the Cadillac is made out of the same kind of stuff as this bird's throat, it certainly ought to last for ever.

Billy Hugheon ears that the rea-

INDIANS CELEBRATE AT PHOENIX FAIR.

[ST DIRFCT WIRE—EXCLUSIVE DISPATCH.]
PHOENIX, Nov. 14.—This was
Indian day at the State fair, with
an attendance of about 5000 redskins from all over Arisona, repre-senting a score of tribes, cheering a long programme of sports in which their own people were the only parparade of 1000 children from the Phoenix Indian School, following a flag drill by several hundred Indian

flag drill by several hundred Indian girls to the patriotic music of the school band. Also attending was the band of Gov. Cantu of Lower California.

The feature of the racing programme was the free-for-all pace, in which the third heat was taken by White Sox, driven by W. G. Durfee, in 2.03 ½; the track race record, after two other notable heats had been paced.

Esperanza, also driven by Durfee, falled to reach a mark of 2:01, but took the track paced trotting record in 2:04 1-4, and beating her own best former time of 2:08 1-4. This track's record hertofore was with May Mack, driven by Deryder in 1915, in 2:04 3-4.

OREGON WILL WORK SOME NEW STUNTS.

as the bird's throat, it certainly ought to last for ever.

To be open to amateur boxers from all parts of the country. The proceeds will be given to soldiers' relief funds.

ANNOUNCEMENT

A NEW FIVE-PASSENGER

HUPMOBILE

WILL BE EXHIBITED TODAY—THURSDAY—NOVEMBER 15 AT THE AUTO SHOW

This is the First Public Exhibition of This Model in any city and is the Most Sensational Announcement of the Auto Show Period.

A NEW HUPMOBILE by the Same Engineers that have produced the former models—the car differs from the Famous Model "N" in Three Essential Features—It is:

A SMALLER Hupmobile—A MORE ECONOMICAL Hupmobile — A LOWER PRICED

This Model positively retains those sterling qualities that have made the Hupmobile fame the world over as the most thoroughly developed and most efficient Four-Cylinder are mobile manufactured today.

We PREDICT TREMENDOUS SALES for this model and increasing interest in the Hammobile line due to the addition of this lower-priced car.

See the New Hupmobile at Space "T 17," Auto Show

GREER-ROBBINS COMPANY Cor. 12th & Flower Sts. Los Angeles, Cal

Users of Firestone Super Cord Tir Enjoy Highest Average Milea

MOST MILES PER DOLLAR has long represented Firestone ideals and practical Firestone performance. The extraordinary demand for the Super Cord is based on mileage records.

Numerous walls of stout cord. Pure gum insulation about each cord. No two cords touching to cause friction. A thick layer of pure gum forms a cushion under the tread, distributes shocks, protects body of tire, welds tread to balance of tire. A tread heavy and powerful, yet resilient. Reinforcement that places the bending point of the side wall where the strain is most easily carried.

These things mean mileage, Most Miles per Dollar, and more. They mean super resil-ience, super absorption of road shock. Therefore, super comfort. And a grip of the road that makes for safety and confident driving.

Bettering the Service in Firestone Fabric Tires

Better than the best records Firestone has ever set are the present-day performances of Firestone Nou-Skid Fabric Tires.

The knowledge gleaned from Firestone Cord experience has been utilized to the full. For example: MORE RUBBER BETWEEN FABRIC LAYERS reduces internal friction and heat. This extra rubber together with an unusually-

THICK CUSHION LAYER adds to resilie This deeper cushion layer has proved more effective than ever in eliminating stone bruise.

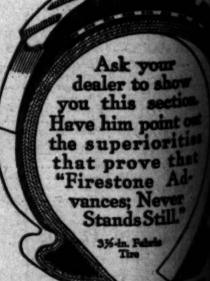

SPECIAL REINFORCEMENT gives strength at the bead and holds the hinge or bending point in the proper position.

Every point of superiority of this Firestone Fabric Tire will be demonstrated by your dealer with a section of the tire. See him today.

Oldest Dry Angeles

Seventh Street at Olive

Special Notice to Customers with Charge Accounts:

Following out the custom which four years ago Coulter's inaugurated in Los Angeles, we have pleasure in making the following announcement:

All purchases made throughout the store on and after today, November 15th, will be charged to December account and appear in statement rendered January 1, 1918.

This distribution of Christmas shopping over a longer period than usual gives patrons an opportunity to purchase leisurely and also relieves our employees of many hardships and enables them to give more efficient service.

November 15th

Should see all gifts for soldiers in France on their way. At Coulter's are to be found any number of thoroughly useful and practical articles, all easily packed and certain to be appreciated by the recipients.

Charming Dresses for Street Wear Below TrueValue at \$23.75,\$37.75

Smart dresses of fine quality satin, taffetas, charmeuse or satin and charmeuse combined in navy, black, taupe, wine and green. Some dresses have sleeves of Georgette, some have the draped skirt; a great many have bead trimming or braid embroidery. In the taffetas there are plenty of black and navy, while in the group at \$37.75 there are lighter tones—cornflower, moonlight, Copen and soft

Every dress is new and is marked much below its former price.

Remnant Sale Crepes and Various Laces

Short lengths of Georgette crepes, chiffon crepes, chiffon cloths and chiffons, also of nets, embroideries and laces have been reduced to almost incredibly low prices, because these remnant lengths have no place in a well regulated lace section.

[ADVERTISEMENT]

ARE YOU AN AMERICAN?

ON Tuesday, November 20th, 1917, you are called to the election polls to answer this question. Some of us will reason that we are Americans if we vote out the saloon business. Amendment No. 4 gives every American in Los Angeles this opportunity.

Vote "YES" on Amendment No. 4

It Will Help Us Win This War

It allows your Federal Government time to collect \$2,000,000.00 due from the liquor dealers of Los Angeles, the war tax levied on their floor stocks.

It Will Save the Real Estate and Rental Situation

The distillation of whiskey and all hard drinks has been stopped by the U. S. Government. This automatically forces the saloon and liquor dealers out of business. Amendment No. 4 gives the saloon, the hotel dining room, the restaurant, and the liquor store until December 31st, 1918, to get out of business and thus save between 300 and 400 storerooms down town from being thrown on the market all at one time. It will keep many hundreds of bungalows, the homes of the liquor men, from being marked up for sale. It gives 5000 men a chance to find other employment right here in Los Angeles instead of driving them and their families eastward and elsewhere.

It Will Keep Los Angeles Advancing

It is impossible for a city administration to figure out where to get the money from if it is taken away from them after being proportioned to the different branches of public service. Your city budget is arranged after your city council has arranged your tax levy on real and personal property and licensed certain lines of business. If during their fiscal year you take this license money from them they must curtail in your city's advancement and stop improvements at once.

It Will Save Your Next Year's Tax Bill from Soaring.

ORNING.

ESCONDIDO, Nov. 13.—Rev. P.
A. Juny, rector of Trinity Episcopal
Church for the past seven years, has
received word from Rt. Rev. Bishop
J. H. Johnson of the Los Angeles
discess that his request to be relieved from further work in order
that he may go into retirement, is
granted. While continuing to reside in Escondide, Rev. Juny will
give up his work as a priest of the
Episcopal Church. His retirement
is on account of ill health. He has
been active in the ministry since1884, during which time he held important positions, including the
rectorship of the largest Episcopal
Church in Georgia.

LAWYERS ORGANIZE BAR ASSOCIATION.

[LOCAL CORRESPONDENCE] WHITTIER, Nov. 14.—The Whittier Bar Association is the latest lo-cal organisation, and sprang into cal organisation, and sprang into being yesterday primarily as a war measure, to assist all men who are registered in the selective draft and who need assistance in filling out their papers properly. Alphonse Moore was chosen president of the organization, and C. Bevan Johnson secretary. The plan includes special evening sessions where the men busy in the daytime may come and have pussling questions answered. That the attorneys league may be of great benefit to the city and community as a whole in protecting its interests and furthering its development is the opinion of those interested in its organization.

Look These Incontrovertible Facts Squarely Los Angeles

in the Face

Despite all kinds of insinuations as to what good these DRASTIC LIQUOR MEASURES

will do if carried, here is the actual result. They will quickly prove to every true thinking and honest meaning citizen that this is not a wet or dry issue but rather an issue that threatens a financial crisis to our city.

the category a material crisis to our city.	
1. Loss of balance of this year's revenue from March 31 to June 1	\$ 109,200.00
2. City liquor licenses, annual amount	694,200.00
3. City taxes paid by liquor dealers	429 507 23
4. City annual rental of about 300 stores—at least	1 000 000 0
5. City annual rental of about 2500 residences—about	1,000,000,00
6. City loss from increase in taxes, at least	1 000 000 00
7. City loss of business from 5000 or more wage earners about	6 000 000 00
8. City additional taxes necessitated by destruction of revenue	112.347.00
9. City loss from tourist trade	30,000,000,00

Showing a grand total loss of \$40,345,254.23

FIGURES DON'T LIE

Some of these figures are absolutely correct, taken from official records; others are approximated as nearly as possible.

Look them over carefully and remember that your taxes already have been raised from 5 to 14 per cent.

That heavy war taxes are already on; That all incomes will be heavily taxed;

That the cost of living is rapidly increasing.

And on top of all this these people want to burden the city with this other tremendous additional load.

This Is the Crisis You Face

Meet It by Going to the Polls on Election Day and Voting
